

# Scientific Programme

## Saturday 24 March 2007

15.00–17.00 ELITA board meeting  
16.00–20.00 Registration

### 18.00–20.00 **Opening ceremony:**

Welcome Address: A. Königsrainer, Germany  
Chairperson Address: P. Burra, Italy

### **Invited lectures:**

Evolution of liver transplantation in Europe  
R. Calne, UK (A01)  
The 'Kili Liver Live' project  
J. Pirenne, Belgium (A02)

### **Guest lecture:**

A transplant surgeon's leisure time activities  
R. Margreiter, Austria

**20.00 Welcome reception and dinner**

## Sunday 25 March 2007

### **8.00–11.20 Biliary strictures of whole and segmental liver grafts: an update**

Chairmen: X. Rogiers, Belgium – M. Colledan, Italy

8.00–8.20 Surgical anatomy of the biliary tree  
P. Majno, Switzerland  
8.20–8.40 Biliary reconstruction after whole liver transplantation: techniques and results  
J. Lerut, Belgium  
8.40–9.00 Current insights on pathogenesis of intrahepatic biliary strictures  
R. Porte, the Netherlands (A03)  
9.00–9.20 Treatment of biliary strictures after whole liver transplantation  
I. Graziadei, Austria (A04)

### **9.20–9.40 Coffee break**

9.40–10.00 Biliary reconstruction after split and living donor liver transplantation: techniques and results  
N. Heaton, UK  
10.00–10.20 Non surgical treatment of biliary strictures in segmental grafts  
L. Defreyne, Belgium  
10.20–10.40 Surgical treatment of biliary strictures in segmental grafts  
D. Broering, Germany  
10.40–11.00 Cholestasis after liver transplantation, diagnosis and management:  
J. Neuberger, UK (A5)  
11.00–11.30 Summary and recommendations  
X. Rogiers, Belgium

### **16.00–17.30 Intestinal transplantation**

Chairmen: P. Burra, Italy – A. Königsrainer, Germany

16.00–16.20 Chronic intestinal failure  
L. Pironi, Italy (A06)  
16.20–16.40 Pediatric intestinal transplantation  
D. Mirza, UK

- 16.40–17.00 Immunosuppression following intestinal and multivisceral transplantation  
A. Pinna, Italy
- 17.00–17.20 Current status of small bowel transplantation in Europe  
M. Olausson, Sweden
- 17.30–18.00 Coffee break**
- 18.00–18.30 Guest lecture: Donor occult HBV in liver transplantation  
J.M. Pawlotsky, France
- 18.30 –19.30 ELTR-studies and free papers session**  
Chairmen: A.K. Burroughs, UK – B. DeHemptinne, Belgium
- 18.30–18.40 Outcome after liver transplantation for Budd–Chiari syndrome – report about 42 patients (O 01)  
J. Pratschke, Germany
- 18.40–18.50 Outcome of patients transplanted for primary sclerosing cholangitis - analysis of the European Liver Transplant Registry (O02)  
C. Schramm, Germany
- 18.50–19.00 200 consecutive primary liver transplantations with left lateral segment (LLS) split grafts (O 03)  
M. Colledan, Italy
- 19.00–19.10 Is it worth performing liver transplantation with marginal donor organs in high-risk (MUC II) patients? (O 04)  
C. Thiel, Germany
- 19.10–19.20 Silver-study- an update  
H. Schlitt, Germany
- 20.00 Gala Dinner**

## Monday 26 March 2007

- 8.00–10.30 My worst case**  
Chairmen: M.Slooff, the Netherlands – J. Langrehr, Germany
- 08.00–08.25 Disastrous outcome after liver retransplantation in a young woman with dysfunction of the primary graft (O 05)  
A. Foss, Norway
- 08.25–08.50 PTLT – a rare complication after liver transplantation (O 06)  
K. Zieniewicz, Poland
- 08.50–09.15 Liver transplantation for a PSC with a marginal graft: not radically resected incidentaloma and delayed cholestatic graft failure (O 07)  
C. Thiel, Germany
- 09.15–09.40 Long-term placement of subcutaneous rusch-type stents for double biliary stenosis in a living-donor liver transplant recipient (O 08)  
D. Lorenzin, Italy
- 09.40–10.05 The enemy within (O 09)  
W. Mark, Austria
- 10.05–10.30 Fulminant liver failure due to clostridium perfringens sepsis after liver transplantation  
I. Königsrainer, Germany
- 10.30–11.00 Coffee break**
- 11.00–14.00 Free papers session**  
Chairman: M. Olausson, Sweden – P. Majno, Switzerland
- 11.00–11.10 Advantages of antithymocyte globulin induction in orthotopic liver transplantation  
C.K. Burghuber, Austria
- 11.10–11.20 Biliary and vascular complications using extended right split liver grafts (O 11)  
M. Colledan, Italy
- 11.20–11.30 Pediatric liver retransplantation: a single center experience (O 12)  
M. Colledan, Italy
- 11.30–11.40 Significant reduction of proinflammatory cytokines by treatment of the human brain dead donor. A prospective randomized trial (O 13)  
J. Pratschke, Germany

- 11.40–11.50 Computer-simulation of the middle hepatic vein's branching patterns before right living-donor hepatectomy may be helpful to assess its drainage territories (O 14)  
P. Schemmer, Germany
- 12.00–12.10 Signs of reperfusion injury following CO<sub>2</sub> pneumoperitoneum for laparoscopic living donor hepatectomy: an *in vivo* microscopy study (O 15)  
P. Schemmer, Germany
- 12.10–12.20 Individual drug therapy adjusted to drug-metabolizing capacity after liver transplantation (O 16)  
L. Kobori, Hungary
- 12.30–12.40 Regenerative signals of the liver after transplantation (O 17)  
M. Schenk, Germany
- 12.40–12.50 Transplantation and intestinal insufficiency in paediatrics: the initial experience of an Italian centre (O 18)  
M. Candusso, Italy
- 13.00–13.10 Venovenous bypass: still needed during liver transplantation? (O 19)  
K. Hoffmann, Germany
- 13.10–13.20 Serum creatinine at time of switch to sirolimus is predictable for successful rescue therapy in liver transplant patients with deteriorating kidney function (O 20)  
G.P. Gyori, Austria
- 13.20–14.00 Hot Topics and Discussion
- 11.00–14.00 ELTR parallel session for database co-ordinators**  
Chairmen: R. Adam, France
- 11:00–11:15 Introduction  
R. Adam, France & P. Burra, Italy
- 11:20–12:00 Interest of the new items of the ELTR questionnaire. The new database  
R. Adam, France & V. Karam, France
- 12:05–12:35 Results and role of audit visits  
W. Wannoff, Germany, F. Roggen, Belgium, JC. Meneu Diaz, Spain
- 12:40–13:10 Website update and improvement  
V. Karam, France
- 13:15–14:00 Problems faced by individual centres in data management  
All Transplant coordinators of contributing centres
- 14.00** Participants to depart at their leisure
